Please note, you must be logged on to be able to access this page. Please see the Logon details below.

Logon

In case if you are not logged on, the system will request for you to do so.

First time logon

The first time you logon you need to request a password. In order to obtain a password please go to the login page. Enter the e-mail address in the "User name" field. This should be the e-mail address to which the purchase order suggestions and purchase orders are sent to.

Click on "Login".

The logon will fail at this time and you will have an option to get a new password by clicking on "Forgot Password" as shown on the picture below.

The screenshot shows the Amphenol login interface. At the top, the Amphenol logo is displayed in large, bold, black letters. Below the logo, the text "Amphenol ConneXus Supply Chain" is written in a smaller, bold, black font. A horizontal dotted line separates the header from the login fields. There are two input fields: "User name" with the text "nn@amphenol.se" entered, and "Password" which is empty. Below the password field is a blue "Login" button. At the bottom of the form, there is a red error message that reads "Wrong username or password." followed by a blue link that says "Forgot Password ?".

Shortly after this an e-mail with the new password will be sent to you.

If it does not arrive within an hour, please inform your contact person at Amphenol ConneXus and we will assist you.
